# INLAND TOUR

## MANGROVES FOREST PARK

Puerto Galera's new marine protected area (MPA) and mangrove conservation site was launched on August 26, 2015. The MPA and mangrove conservation site, measuring 22 hectares, is composed largely of a mangrove forest coupled with reefs and seagrass. The new MPA is the municipality's second MPA.

## 2- APLYA MUNTI BEACH

Unting Aplaya, or Virgin Beach or Dulangan Beach, whatever the name is, locals will point you to the same place. Its a long stretch of beach divided into two by a huge rock formation right smack in the middle.

## 3- THE VIEW POINT (PICTURE TAKING)

**4- TAMARAW FALLS**

Truly a magnificent piece of nature. On our way, we'll be passing on a hilly zigzag road with beautiful views across the sea. Tamaraw Falls are around 150 meters high with cascades of differently shaped and sized waterfalls combining into a single basin.

## 5- RICE FIELD & MT. HALCON VIEW

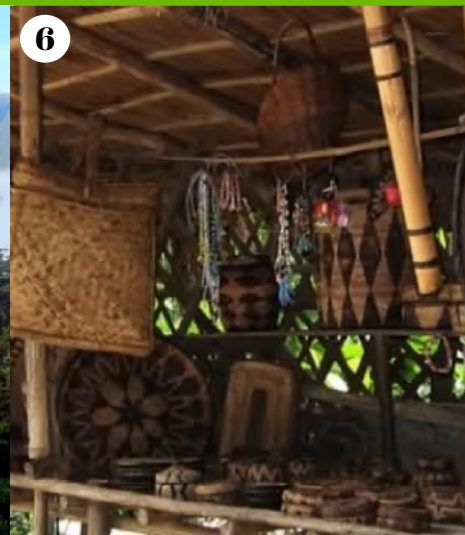

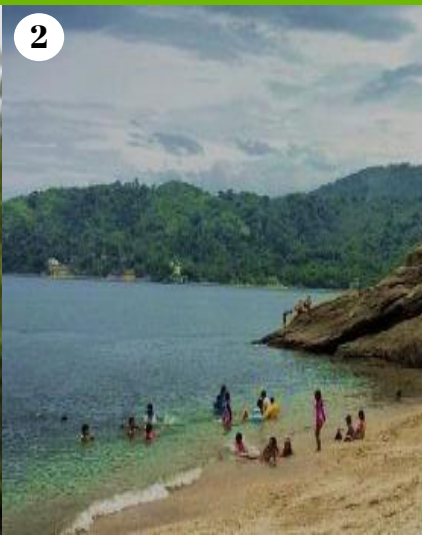

Mt. Halcon is the giant of Mindoro. This is one of the most difficult mountains to climb in the Philippines. The lush green rice fields surrounding the mountain are a beauty for the eye.

## 6- MANGYAN VILLAGE

The Mangyan tribe are the first inhabitants of Mindoro Island. Here you can see how they live in their nipa huts and how they prepare food. The Mangyan people are warm and welcoming.

## 7- LANTUYANG HANGING BRIDGE

From the village we will walk across the Lantuyang Bridge. It spans over a crystal clear shallow river. The bridge was built in 1999 and is made of wood and steel and used by the locals to cross the river.

# ISLAND TOUR

## CORAL GARDENS

Puerto Galera offers some amazing snorkeling. Coral Gardens is a perfect location to get up-close and personal with some incredible marine life. These clear, shallow waters lie off a beautiful white sand beach.

## GIANT CLAM SHELL GARDEN

A snorkeling trip to the Giant Clams is one of the highlights Puerto Galera has to offer. Located in the shallow waters of beautiful Puerto Galera bay, these amazing creatures can reach lengths of one meter.

## LONG BEACH

Island Hopping around Puerto Galera is a must. Long Beach is just one of the many amazing white sand beaches scattered throughout our coastal waters.

## HALIGI BEACH

Plan a picnic under one of the thatched huts of Haligi Beach. One of our popular Island-Hopping stops. Swim in the clear waters off this beautiful white sand beach.

## MANILA CHANNEL

Snorkel in the shallow waters off Manila Channel. This reef is teeming with incredible varieties of hard and soft corals. You'll see dozens of species of colorful, tropical fish close enough to touch!

## UNDERWATER CAVE (OPTIONAL)

This small cave is located off the edge of Long Beach, on San Antonio island. A short swim-through and you pop up in a very cool underwater cave. A great option to your island tour!
